

Project Update – February 2013

Alice Water Smart Homes & Businesses

What's happened so far?

- 850 Alice Springs homeowners have had a Water Efficiency Consultation, in partnership with the Arid Lands Environment Centre
- 401 million litres of water savings have been identified in homes, equivalent to 182 Alice Springs Aquatic Centres
- Alice Springs WaterWise has provided over 3,300 Waterwise Rebates since July 2011 to improve home water efficiency and save 65 million litres
- 49 businesses and organisations have had or are having Water Efficiency Consultations, with 344 million litres of identified water savings
- 144 million litres of water leaks have been found in businesses, equivalent to 65 Alice Springs Aquatic Centres.
- 9 Alice Springs schools have saved 22 million litres of water through plumbing and irrigation upgrades through the WaterWise Schools Program and Alice Water Smart

Tools and resources to help you be smarter at home can be found on the Alice Water Smart website at www.alicewatersmart.com.au

Alice Water Smart is supported by the Australian Government through the *Water for the Future* initiative.
